PROFESSIONAL SUMMARY

Full-stack Software Engineer with experience building scalable web and mobile applications using modern technologies including **Next.js, React, Flutter, Laravel, and .NET**. Skilled in designing secure APIs, implementing responsive UI/UX, optimizing performance, and deploying production systems on cloud and VPS environments. Experienced in translating business requirements into reliable software solutions, collaborating with cross-functional teams, and delivering high-quality applications across web and mobile platforms.

EDUCATION

BRAC University

Dhaka, Bangladesh | 2024

B.SC. IN COMPUTER SCIENCE AND ENGINEERING

Thesis: Predicting Kidney Disease using Machine Learning and Neural Networks

WORK EXPERIENCE

ATNATION | FULL-STACK SOFTWARE ENGINEER

Dhaka, Bangladesh | July 2025 – Present

- Designed and deployed scalable web applications using **JavaScript, TypeScript, React, and Next.js** with responsive UI and optimized performance.
- Developed and maintained **cross-platform mobile applications using Flutter**, managing the full lifecycle from development to App Store and Google Play deployment.
- Customized and optimized **WordPress themes and plugins**, improving performance, security, and maintainability.
- Transformed **Figma design systems** into pixel-perfect responsive interfaces across web and mobile platforms.
- Managed production deployments including **domain configuration, VPS setup, server management, and CI/CD pipelines**.
- Implemented **Cloudflare caching, CDN, SSL configuration, and security protection** to enhance application performance and reliability.
- Conducted **technical SEO audits, keyword research, and analytics** using SEMrush to improve search visibility and organic traffic.
- Collaborated with **clients, designers, and product stakeholders** to gather requirements and deliver scalable software solutions.
- Provided mentorship to junior developers through **code reviews, technical guidance, and best practice training**.

KHAN INNOVATION | JUNIOR SOFTWARE DEVELOPER

Dhaka, Bangladesh | June 2024 – June 2025

- Contributed to development of a **Billing and ERP Management System** using **C#, .NET, and WPF** following the **MVVM architecture**.
- Designed interactive **ERP dashboards and reporting interfaces** to improve usability and business insights.
- Implemented **secure authentication and role-based access control** to protect enterprise data.
- Designed and maintained relational **database schemas** supporting product management, customer records, invoices, and transaction history.
- Collaborated with cross-functional teams to analyze requirements and deliver maintainable enterprise software solutions.

PROJECTS

ACEDEVELOPERS REAL ESTATE PLATFORM

NEXT.JS, CONTENTFUL, TAILWIND CSS, SEO

Built a production real estate platform using **Next.js SSR** and **Contentful headless CMS**. Implemented SEO optimization, responsive UI components, and automated deployment pipelines while achieving **90+ Lighthouse performance scores**.

MASALACHA SOCIAL MATCHMAKING APP

FLUTTER, LARAVEL, MYSQL, FIREBASE, REST API

Developed a full-stack matchmaking platform with a **Flutter mobile application** and **Laravel REST API backend**. Implemented JWT authentication, Firebase real-time chat, profile matching algorithms, and payment integration while reducing application load times by **40%** through optimized state management and caching.

TRALIVENTA SPORTS EVENT PLATFORM

NEXT.JS, TYPESCRIPT, GSAP, TAILWIND CSS

Engineered a high-performance event platform using **Next.js** and **TypeScript**. Integrated dynamic event updates and animation frameworks while improving **Core Web Vitals** and increasing organic traffic through technical SEO and structured data implementation.

ATNATION INTERACTIVE PORTFOLIO

NEXT.JS, THREE.JS, SPLINE, GSAP

Designed an immersive portfolio platform using **Three.js**, **WebGL**, and **Spline** for interactive 3D experiences. Optimized rendering performance to maintain **60 FPS animations** while ensuring responsive layouts.

KARMOGROUP E-COMMERCE PLATFORM

NEXT.JS, TYPESCRIPT, NEXTAUTH, SQLITE

Developing a dual **B2B/B2C e-commerce system** with role-based authentication, modular architecture, and scalable UI components. Leveraging **NextAuth.js** and **incremental static regeneration** to improve performance and maintain secure authentication workflows.

INVENTORY MANAGEMENT SYSTEM

ASP.NET MVC, C#, ENTITY FRAMEWORK, SQL SERVER

Built a full-featured inventory management system with stock tracking, transaction processing, role-based access control, and automated low-stock alerts to support warehouse operations.

TECHNICAL SKILLS

Programming Languages

TypeScript • JavaScript • Dart • Python • Java • PHP • C# • C++ • Kotlin

Frameworks and Libraries

React.js • Next.js • Node.js • Laravel • Django • ASP.NET • Flutter • TensorFlow • Keras • Pandas • NumPy

Tools and Platforms

Git • Docker • Firebase • Cloudflare • REST APIs • VPS Management • Linux Server Administration • cPanel • hPanel • aaPanel • MySQL
